

ANDREW BATTENBURG

Software and Graphic Designer, UX/UI Web Dev, Project Planner

EMPLOYMENT

renticity, *August 2013 – Current*

Responsible for design, branding, UX, UI, and front end design of renticity's SaaS product. Drafted numerous project plans, specs, and documentation for live products. Managed JIRA projects and bug ticketing systems. Designed advertisements for both online and print media.

Sweet Peace Body Works, *April 2016 – Current*

Consulted and put together a software package that includes website, search engine presence, online scheduling, and payment processing.

buuteeq, *January 2012 – May 2012*

Designed and gathered data for client sites. Reproduced, fixed, and tested many browser and Internet Explorer design bugs for buuteeq's SaaS product. Designed and managed online advertising campaigns for clients.

shiftalliance, *February 2010 – June 2011*

Lead shiftalliance's student team for University of Washington's iSchool capstone project. Managed and collected data for core product analytics.

Red Red Printing, *November 2010 – June 2011*

Prepared and designed client graphics for screen printing of t-shirts and other products.

EDUCATION

University of Washington, Seattle, WA, *2007-2011*

Bachelor of Science, Informatics and Human Computer Interaction

Design Expo, Microsoft Research, Redmond, WA, *2010*

Presented student design team project "Open Door", representing UW at *Design Expo 2010: Where Service Meets Social*. One of 6 national teams invited.

Computers and Writing Conference, Davis, CA, *2009*

Presented peer-reviewed paper, "Digital Texture and Textuality in New Media." One of 11 total papers presented by UW undergraduates at any national conference in 2009.
